

**CHILD CARE ENVIRONMENTAL RISK
ASSESSMENT FOR LEAD**

Date of Assessment: ___/___/___ Inspector: _____
 Name of Facility as Licensed: _____
 Address of Facility: _____
 Contact Name at Facility: _____
 Property Owned or Rented: _____
 If rental, name, address, phone of landlord
 Name: _____
 Address: _____
 Phone: _____
 Approximate Age of Facility (Year Built): _____

Lead Based Paint Exposure Evaluation

- Determine need for XRF testing of facilities built prior to 1978
- With no prior history of XRF evaluation - perform XRF testing.
 - With prior history of XRF evaluation – check prior report.
 - If within two years, do visual inspection of surfaces for deteriorating conditions.
 - If done more than two years previous, repeat XRF assessment.
 - If two consecutive XRF reports do not find any lead hazards, do visual inspection only.

Prior XRF Testing Done? _____ Date performed: _____

Prior report available? _____	Lead Hazard identified at prior XRF?	Yes	No
XRF testing needed at this time? Yes No	Lead Hazard Identified <i>If yes, see attached report.</i>	Yes	No
Visual examination only needed at this time?		Yes	No
Lead Hazard Identified?	<i>If yes, see attached report.</i>	Yes	No

Facility built post 1978 – waive XRF and visual lead based paint inspection

Other Misc. Sources of Possible Lead Exposure

Check food preparation areas/dishware	Lead Hazard Identified <i>If yes, see attached report.</i>	Yes	No
Check outside play areas/toys	Lead Hazard Identified <i>If yes, see attached report.</i>	Yes	No
Check indoors play areas/toys	Lead Hazard Identified <i>If yes, see attached report.</i>	Yes	No
Check decorative items in child care areas	Lead Hazard Identified <i>If yes, see attached report.</i>	Yes	No

Continued

CHILD CARE ENVIRONMENTAL RISK ASSESSMENT FOR LEAD (continued)

Determine need for water testing:

City Water – waive water testing

Well water – periodic testing recommended

Determine need for soil testing:

- Bare soil accessible to children near buildings built prior 1978 – test soil

Results: _____

Recommendations for intervention: _____

- No access by children to bare soil in play areas or evidence of pre-1978 lead exposure sources – waive soil testing
