

TABLE I - 01b

US Census Bureau Population Estimates

Douglas County, Nebraska 2002-2013

Note: Prior to 2011, intercensal population estimates used on this site have been projections for Douglas County from Woods & Poole Economics; with calculations based upon race/ethnicity, gender and age. However, calculations based upon census tract/region in Douglas County are based on census tract data from the 2010 US Census; as this data is not available from Woods & Poole Economics or from the Census Bureau's intercensal estimates. From 2011 forward, calculations other than for region or census tract will utilize the US Census Bureau's Intercensal Estimates for non-Census years. Population estimates for 2002-2009 are listed below for reference only.

By Gender

Year	Population	Male	Female
2000	463,585	226,734	236,851
